

Citizen Service Center

17/04/2020

This is a project for the structuring, implementation, qualification and operation of citizen service centers in the State of Paraná, through public-private partnerships.

The main objective of a Citizen Service Center is to provide, all in one place, public services in the municipal, state and federal spheres. Besides these services, there will be also the possibility of providing some private services.

This integration in the public services is intended to provide quality and efficiency in the attendance of the population and to optimize the resources of the State of Paraná.
